April 2, 2020

Lodi USD:

Based on the recommendation from our County Superintendent of Schools and information from the State Superintendent of Schools and Governor, our District will remain closed through the end of the 2019-20 school year.

The health of our students, staff and community are of the utmost importance and it is vital that we ensure we are all doing our part to help stop the spread of COVID-19.

We know this is upsetting and we share your disappointment that we will not be able to end this school year as planned.

Our community relies on our schools to educate our children. Even though schools are closed, we will continue to provide education through remote learning. Our teachers and staff have done a tremendous job navigating this unprecedented time, and we are committed to continuing to support our students.

As the California Department of Education provides more guidance on this situation, our District will continue to develop remote teaching and learning activities for the rest of the school year.

We know there are still questions from staff and families. We will provide more details as they become available.

We appreciate the continued support and understanding from our families.

Cathy Nichols-Washer,
Superintendent
